

From time to time, it is important to assess where we are now and where we want to go in the future.

“One year for the rest of your life” has been our slogan for 3D. We have found investing in disciple-makers is a task like no other, with the unprecedented blessing of witnessing lives changed, purposes crystalizing, and youth inertia on the move. Those of you who have partnered with us would not be disappointed in your investment, not even a bit.

Who would have believed the amazing blessing Covid would become? Certainly, we would probably never have made this herculean effort to invest in young lives were it not for the lockdowns. We did indeed burn the midnight oil many days. In August new staff arrived from the states of Washington and Georgia and students began to converge on site during the first three days of September. Classes took off without me since I was in and out of the hospital during those early days. It is a happy fact that God’s Word and work are not dependent on any one of us.

Our passion in DM2 as a ministry is three-pronged. We strive to clearly declare the gospel of grace received through faith alone in Christ’s death for our sins and resurrection, we seek to make disciple-makers in every nation possible, and we desire to

bless the church of Jesus Christ wherever it stands. We are convinced that as we maintain these focuses, we cannot help but be blessed, since Christ, the author of our salvation, wants this message preached everywhere, and since He also sent us to make disciples of all the nations. Christ promised to build His church, so how can we go wrong if we maintain these objectives?

- This year, through our 3D training center, our focus has been primarily pointed toward the creation of future disciple-makers in North America. As many of you have followed our various communiques, I am sure you are aware of the miraculous work God has done. We believe that come May 31 we will be sending forth an excellent group of graduates. All plan to head out with renewed vigor to reach their respective worlds with the gospel, to make disciples and to integrate into their local churches. Several have commented that they are now open to full time service should God lead them in that direction. Others would like to return to intern with us for the coming year.

Our present goal is to continue this program next year. Already we are seeing great interest from various individuals. We do not feel it will be difficult to recruit new students since the word is out and the program concept has proven successful.

by Bret Nazworth

So how can you get involved and partner with us?

- We continue to need sponsorships for keeping the student costs low.
- We ultimately need a long-term solution to student housing.
- Also, most of our staff need financial partners. (If you'd like information on this, please let us know.)
- Our desire is for some of our current students to stay on as interns for the coming year. This will require prayer and finances.
- We need God to stir the hearts of future students so they can secure their spot with us for the 2022-2023 year.
- We request prayer for our students as they plan to travel several weeks this summer doing 5 youth conferences in Virginia, Georgia, and Texas.
